

THE SILVERI
MGALLERY HONG KONG

Environmental Policy

The Silveri Hong Kong –MGallery attach a great deal of value to respect for the environment. We show our commitment by actively participating in the protection of the environment, in the following ways:

- Encourage staff and guest involvement in environmental issues through practices as well as appropriate information and training. We have a Green Champion and we continually review our practices and empower our team in green' thinking to 'eliminate, reduce, reuse, recycle'.
- Keep guests informed of actions that have been taken and suggest ways in which they can help.
- Conform to local and national regulatory requirements.
- Trains all team members and raises awareness of the importance of integrating environmental protection into their daily routines.
- Integrates the company's contractors and suppliers into the process.
- Conforms with the company's Environmental Management System, which is updated regularly.
- Promote energy conservation by efficient use, careful planning and design with due regard to improved energy utilization and appropriate investment in energy efficient measures.
- Minimize waste and ensure that there is effective control, which promotes recycling where possible and provides responsible disposal, particularly with regard to hazardous wastes
- Avoid any risk of water, soil and air pollution in order to achieve these objectives.
- Promote environmentally responsible, ethical and fair trade policies in our purchasing of food and other products.
- Strive to eliminate the release of pollutants, to be achieved by application of discharge controls, and also by initial assessment and continuing evaluation of the appropriateness of and need for any activity which could have an impact on the environment.
- Adopt policies which take into account the visual impact of hotel activities.
- Take into consideration the likely environmental effect of hotel activities and developments on the local community.
