INSPIRED FROM CLASSIC

BARREL AGED NEGRONI 98

Citadelle original gin, rosso, campari aged inside barrel

During the 20th century it is said to be invented in Florence by the dauntless Italian Count Camillo Negroni, at Bar Casoni in Florence, he demanded that the bartender strengthen his favorite cocktail, the Americano, by replacing usual soda water to gin. With the same inspiration we let our negroni rest inside an oak barrel for 1month to have a nice smooth & oaky flavour.

SHREK HOPPER 88

Creme de menthe, creme de cacao, absolut vodka, white rum, full creame milk

Inspired from the classic Grasshopper cocktail that represent green, creamy colour. We have choosen a way to make it stronger but equally refreshing and minty. The name was derived from Shrek the character for his undeniable green colour and a pleasant refreshing personality.

RUBUS HIGHBALL 108

Citadelle rouge gin, dark fruit shrub, cinnamon syrup, top up with beer

The Rubus Highball is a cocktail that champions sustainability while commemorating traditional processes and the history of cocktail making. An ode to the olden times, we want to share how cocktail ingredients were preserved before appliances like refrigerators were first invented. During the prohibition period, this had also gained its popularity as alternatives to alcoholic drinks to sip on for end of the day relaxation or even celebratory occasions. Shrubs are the perfect way to convey sustainability through minimizing waste and utilizing all parts of an ingredient, all while elevating the basic cocktail with its intricate composition and its delectable taste. This process paved the way of bringing a new form of cocktails to consumers— one that not only brings the sense of delicious flavor and enjoyment of a standard drink, but also brings a new experience of delicacy and complexity to one's palette, maximizing the use of ingredients available and reducing waste of parts we never knew we could bring into play.
